Professional Summary

Aspiring Data Analyst with hands-on experience in **SQL, Python, Power BI, Excel, and Tableau**, with strong knowledge of data cleaning, exploratory data analysis, data visualization, KPI reporting, and dashboard development. Skilled in **Pandas, Matplotlib, Seaborn, Power Query, and DAX** for transforming data and creating interactive analytical dashboards. Experienced in using AI-assisted tools such as **ChatGPT, Microsoft Copilot, Claude, and GitHub Copilot** to improve data analysis, research, and productivity.

Technical Skills

Programming & Data Analysis	Python, Pandas, Matplotlib, Seaborn
Data Analytics	Data Cleaning, Data Transformation, Exploratory Data Analysis, Data Visualization, KPI Analysis, Business Insights
Business Intelligence	Power BI, Power BI Service, DAX, Power Query, Data Modeling, Dashboard Development, KPI Reporting
Spreadsheet & Visualization	Advanced Excel, Tableau
Databases	SQL, MySQL, Oracle SQL
AI Tools	ChatGPT, Microsoft Copilot, Claude, GitHub Copilot
Tools	Power BI Desktop, Excel, MySQL Workbench, Git, GitHub

Professional Experience

Software Trainer (Part-Time) **Apr 2025 – Present**
Itech Academy, Tirunelveli

- Conduct practical training in **Python, SQL, Power BI, Advanced Excel, and Database Management**, covering data analysis, SQL queries, data visualization, and dashboard development.
- Guide learners through **data cleaning, transformation, data modeling, dashboard creation, and analytical problem-solving**, while designing project-based assignments focused on business intelligence and data analytics.

Data Analytics Projects

- Spotify Dashboard** *Power BI, DAX, Power Query*
Interactive dashboard analyzing Spotify music data, tracks, artists, genres, and audio characteristics.
- Sales Dashboard** *Power BI, DAX, Power Query*
Sales analytics dashboard designed to analyze business performance, KPIs, sales trends, and key metrics.
- Car Sales Dashboard** *Power BI, DAX, Power Query*
Interactive dashboard analyzing automotive sales performance, trends, and key business indicators.
- Student Dashboard** *Power BI, Excel*
Student analytics dashboard designed to visualize academic and student-related performance metrics.
- Olist E-Commerce Dashboard** *Power BI, DAX, Power Query*
E-commerce dashboard analyzing orders, customers, products, sales, and delivery performance using Olist marketplace data.
- Power BI Sales Dashboard** *Power BI, DAX, Power Query, Excel*
Interactive sales analysis dashboard using KPIs, filters, visualizations, Power Query, and DAX.

Education

B.Sc. Artificial Intelligence **2024 – 2027**
St. Xavier's College (Autonomous), Tirunelveli

Certification

Oracle Data Science Professional
